[Response to Comments on Well Drilling Construction Development.docx](#)

Hello Cindy,

Attached is the current version for Well Construction and Development

Dom is also the lead on (1) Purging and Sampling methods and (2) Stray Gas.

He has information gathered for these additional topics including information in the Phase V report but hasn't started to pull a document together.

Kelly:

Here is the draft document on response to comments on drilling, well construction, and well development as of right now.

I am still working on this document and it has not been reviewed by Rick Wilkin and others.
